

## CDNVS-60 Video combiner - to an installation box 60 mm

Video combiner for digital systems. Used when there is a need to connect an external analog camera or other video source to systems without a camera. The module converts the PAL signal into a differential video signal (transmitted via a cat. 5e or 6 twisted pair cable). It can also be used to connect a second camera: in INS-MP7 monitors or to the camera switch module (VIDEO-SW2 MINI-60). Module without housing for mounting in a Ø60 mm installation box. Compatible with digital group devices: CDNP, Inspiro and Familio.

<b>Index</b>	CDNVS-60
<b>Description</b>	Video combiner for an installation box Ø60 mm
<b>Material</b>	Foamed PVC housing (bottom)
<b>Dimensions (mm)</b>	35x50x17,5
<b>Installation type</b>	Digital: twisted-pair cat. 5e or 6
<b>Power supply</b>	15VDC / 40mA
<b>Stand-by power consumption</b>	~0,6W
<b>Outputs</b>	ARK screw connections: <ul style="list-style-type: none"> <li>- VIDEO differential signal outputs</li> <li>- power supply connection for external camera (12V, max 200mA)</li> </ul>
<b>Inputs</b>	ARK screw connections: <ul style="list-style-type: none"> <li>- PAL video signal connection (75 Ohm)</li> <li>- power connection</li> </ul>
<b>Attributes</b>	<ul style="list-style-type: none"> <li>- compatible with PAL video signal (75 Ohm)</li> <li>- possibility of connecting an external analog camera to ACO video systems</li> <li>- allows the connection of a second camera in the monitors INS-MP7</li> <li>- is located in an installation box with a diameter of 60mm</li> <li>- compatible with CDNP, Inspiro, COMO / Familio-P/PRO</li> </ul>
