

EDL/ANS

Electric Strike Release

Fail Open solenoid operated lock for outward opening external doors (mortice type).

Features:

- Operating voltage 12V DC
- Stainless steel
- Fail-Open
- ANSI style release (budget)
- Monitoring circuit

TECHNICAL DATA

	EDL/ANS
Voltage tolerance	±10%
Current draw	200mA (at temperature 20°C)
Operating temperature	-10~45°C (14 to 131°F)
Locks surface temperature	Current temperature ±20% (when power is on)
Bolt status output	Indicates bolt locked or unlocked status (SPDT rated 3A at 30V DC)
Humidity	0~95% non-condensing
Installation	Horizontal or vertical
Weight	1.2kg (approx)
